PROCEDURE FOR HANDLING DEFECTIVE LIONEL MERCHANDISE

All Lionel Merchandise offered for sale by Shapleigh Hardware Company carries a warranty of service from the manufacturer. This warranty is a written statement establishing the limits of the manufacturer's responsibility (usually defective workmanship and materials, for a one year period) and the degree of recourse to which the consumer is entitled.

DO NOT RETURN ANY LIONEL PRODUCTS TO US. Shapleigh Hardware Company is not an authorized service center and we are not equipped to make repairs. Returns to us result in unnecessary delay and additional expense to the retailer. We must insist that all returns for repairs be made to the nearest authorized service center. See authorized service centers on the following pages. Where no repair agencies have been authorized, returns will be made direct to the factory.

A letter giving the date of purchase by the consumer and stating the reason for the return should be attached to the package containing the equipment. If returns are made without giving the date of purchase by the consumer, the service center will be guided by the serial number which indicates date of manufacture. The statement "Within Warranty" or "Defective" is not sufficient information. **Return shipment will be made by Insured Parcel Post or Express Collect.**

LIONEL SERVICE POLICY

Lionel Products are guaranteed against defects in material and workmanship to the extent that if any such defective article is returned to the Lionel Service Department or to any Lionel Authorized Service Station within a year of the date of purchase it will be repaired or replaced.

When returning articles for service either to the Lionel Service Department or to any authorized Service Station, please send only those articles which you believe to be inoperative. There is no need to return the complete outfit when the trouble is in the locomotive only.

If any of your equipment needs servicing you may send it either to the Factory Service Department or to any Lionel Approved Service Station.

Although the Lionel Approved Service Stations listed in the following pages are independently owned and operated, each has been carefully checked by The Lionel Corporation for reliability. These Service Men are experts and most of them have been adjusting and repairing Lionel equipment for many years. Lionel Authorized Service Station approval is not permanent but has to be renewed from year to year to assure continuing high standard of service.

In addition, The Lionel Corporation maintains two large Service Stations of its own. One is at 15 East 26th Street, New York 10, New York, and the other is at 28 Sager Place, Irvington 11, N. J.

LIONEL'S SUPER "O" TRACK

Most Important Model Railroading Development since MAGNE-TRACTION

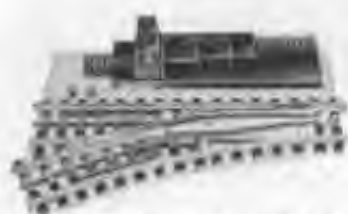

Lionel Super "O" track with its two flat-top "T" shaped running rails and inconspicuous third rail placed between the outside running rails is authentic even to the closely spaced ties and accurate detail of the tie plates and rail spikes.

Super "O" track provides all the operating advantages of three rail track making possible flexibility and easy wiring for any track layout irrespective of size or complexity.

All Lionel locomotives and every type of rolling stock operates perfectly on Super "O" track, which can be used interchangeably with any "027" or "O" gauge track switches or track accessories by using special transition pieces.

Super "O" track measures 1 1/4" between the running rails. The height of the track is 15/32". Straight and curved sections each are 7" long. There are 16 molded ties in each track section. A circle of 12 sections of Super "O" track measures 36" in diameter.
